2. For the class to be successful, everyone must attend and contribute. I expect the following from each student in this class: When you walk through the door you are here, focused and participating. This includes being physically here, mentally here, fully focused, and willing to learn, question, speak out in class, share experiences, and critically examine the concepts presented with an open mind).

4. Unless noted otherwise, all written assignments must will be graded on expression of original ideas in addition to material content. As such, it is suggested that all students take their time when writing and allow themselves multiple opportunities to proofread and make any necessary corrections. Papers must be written in American Psychological Association (APA) format (as opposed to MLA).
